While Company has achieved profitability during the six months period ended September 30, 2025 and September 30, 2024 and the Financial Year 2025, any failure to increase our revenue to keep pace with our initiatives, investments and other expenses or manage our cash flows efficiently could prevent us from maintaining profitability in the future, which in turn could cause the value of our Equity Shares to decline.

2. **Business Risk:** Company significantly relies on a scaled and unified network infrastructure for business operations, largely comprising 4,299 touchpoints, distributed across first and last mile centers and sort centers, and supported by more than 3.50 million square feet of operational space, and reaching 14,758 pin codes as of September 30, 2025. Any disruptions to our network may adversely affect our business operations.
3. **Clientele Risk:** Company's largest client contributed 48.91%, 51.23%, 48.00%, 59.23%, and 59.52% of revenue from operations for the six months period ended September 30, 2025, and September 30, 2024, and the Financial Years 2025, 2024, and 2023, respectively. The loss of any such key commercial relationships could adversely affect the business. Company's group Companies viz. Flipkart Internet Private Limited, Instakart Services Private Limited, Pincode Shopping Solutions Private Limited, and Wal-Mart India Private Limited have contributed more than 10% of revenue from operations in certain periods during the six months period ended September 30, 2025 and September 30, 2024, and the Financial Year 2025, 2024 and 2023. A high concentration of revenue from a limited number of clients, poses a significant risk to our financial stability and operational resilience. Further, any loss or reduction of business from any of these key clients, it could materially impact our revenue and profitability.
4. **Business Risk:** Company has experienced significant growth in recent years driven by new service offerings, industry expansion, and a market share shift in our favour in certain business service lines.

The table below sets forth the revenue split across the various services we offer for the periods indicated:

Particulars	Six months period ended September 30		Financial Year	
	2025		2025

Total	18,056.44	100.00%	24,851.31	100.00%

The table below sets forth details of the number of orders across the various services we offer for the periods indicated:

5. **Business Risk:** Any inability to expand and grow network infrastructure in a balanced manner could adversely affect future growth. Company's business expands, securing desirable new locations for our facilities may prove challenging due to increased competition, potentially resulting in higher rent expenses that could impede profitability and cash flow. Establishing new logistics facilities may also incur substantial design and equipment costs. The table below indicates the capital expenditure incurred towards our logistics facilities for the periods indicated:

Particulars	Six months period ended September 30		Financial Year		
	2025	2024	2025	2024	2023

6. **Delivery Partner Risk:** We rely on our crowdsourced network of delivery partners, comprising of 205,864 Average Quarterly Unique Transacting Delivery Partners as of September 30, 2025, with whom we do not have any exclusive arrangements, for certain aspects of our business, and any change to the supply of delivery partners may disrupt our business operations, lead to additional losses and expose us to additional risks. Furthermore, coordinated actions, protests, or strikes by gig-platform workers across the industry could potentially impact rider availability, service levels, and our ability to fulfill customer demand.
7. **Business Risk:** Delivery partners can sometimes mishandle goods, often stemming from pressures related to meeting tight delivery schedules or from insufficient training. Any mishandling of goods by our delivery partners may lead to operational inefficiencies and client dissatisfaction, which may affect business, financial condition and results of operation.
8. **Franchisee Related Risk:** We depend on third-party franchisees for a portion of our last-mile deliveries, and any failure in their performance or disruptions in our business relationships with them could adversely impact our service quality, financial performance, and reputation.
9. **Business Risk:** Some of our clients choose cash on delivery as their preferred payment method. This practice involves us acting as limited agents for our brands, merchants, and quick-commerce platforms, which presents operational challenges and potential risks regarding cash loss.
